The 3rd Young Engineers Personality Development Programme (3YEPDP), conducted from 26-30 October 2026 by NDU, was a one-week certification programme for PEC Graduate Engineers Trainees (GETs), designed to bridge the gap between academic learning and professional practice. The programme focused on communication, teamwork, leadership, time management, emotional intelligence, conflict resolution, and professional ethics through interactive and experiential learning. It equipped young engineers with the professional competencies, workplace attitudes, and career readiness needed to become responsible, adaptable, and ethically grounded engineering professionals.
